NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. For sale by J. M. Finn.

Isn't it strange that a rooster should crow, and a crow should hawk, and a hawk should fly, and a fly should flee, and a flea should jump?

President W. H. Broadbent, of the Detroit Evening Journal Co., has set apart a fully stocked writing desk in his office, which he asks the editorial fraternity of the state to freely use when in the city. Mr. B. knows that the rural press appreciate the Journal and we acknowledge it to be the "Boss paper"—to steal from.

The weather has been doing better. There have been frequent rains all over the territory affected by the drought. Though they are not in time to save large percentages of the corn crop and vegetable crops from utter loss, they have, however, revived that large part which still had a residuum of life and recuperative power. The revival of the grass crops is one of the more substantial benefits which may result in a large saving of the depleted resources of the farmers in grain.—Blader.

E. M. Roffe has sold the following parcels lots in his addition to Grayling: Mrs. J. C. Evans, lot 2, block 21; William Fairbairn, lots 5 & 6, blk. 25; and James Durfee, lot 7, blk. 29.

J. G. Marsh and several other of our farmers invested in what was sold to them for Bagatelle seed last spring, and are now reaping a crop of "What is it?"

The Raymond Bros. have secured the services of a first class barber from Bay City. Give them a call when you want any work done in their line.

Rev. Edwards returned from the camp meeting last Thursday and last Sabbath forenoon preached one of the best sermons ever delivered in the M. E. Church.

The Raymond Bros. have secured the services of a first class barber from Bay City. Give them a call when you want any work done in their line.

Rev. Edwards returned from the camp meeting last Thursday and last Sabbath forenoon preached one of the best sermons ever delivered in the M. E. Church.

The family of George Langdale, of South Branch, are talking of removing back to York State, where Mr. Langdale is. We hope they will reconsider their decision.—Ros News.

E. Alger is building a neat house on the bank of the river close to his residence.

Some of the G. A. R. boys who attended the reunion at Rosemon, have had an appetite for nothing but beans and hard tack since.—Ros News.

Travers' Furniture Rooms.

Yesterday (last Saturday) afternoon, John Lentz, of Pine River, had a cap issued for the arrest of C. H. Fox, one of the Michigan Central conductors on the Mackinaw division, in a suit for \$1,000 damages. Mr. Fox was apprehended and furnished \$500 bail for his appearance in the circuit court when wanted. He had put Lentz off his train for not paying his fare.—Bay City Tribune.

I. M. Silsby, of Center Plains township, is busy preparing to raise a new barn on his farm to morrow, so he told George Draper while having some pikes made. It will be 32x44 feet.—Ros News.

So much celery is grown in and around Kalamazoo, Mich., that the town is familiarly known as "Celeryville," and its sturdy citizens are said to swear by celery and at everything else. The truth of this last statement, however, is open to question. As much as \$1,000 has been realized from an acre of Kalamazoo celery, but the average profit is \$400 an acre.

There are 3,000 acres now under cultivation at Kalamazoo, and the business is entirely in the hands of Hollanders, who are a community by themselves and are locally known as "Celery." The cultivation of celery is increasing every year at Kalamazoo, and hardly a week passes that does not witness the arrival of thirty or forty Hollanders who plod solidly through the streets in their wooden shoes, and are proprietors of a little estery firm.

The democratic party has about bankrupted the treasury of Indiana. This is the same party that stole a United States' ship from the disreputable tactics equal to hen-roost robbery. It is impossible to expect anything better from them.—Bay City Tribune.

THE BLUE AND THE GRAY.

The Evansville Reunion—Letter from Roseau County.

FARRAGUT POST, G. A. R., says an Evansville (Ind.) especially in making great preparations for the reunion of the blue and the gray in that city from Sept. 20 to 23, inclusive. A number of prominent Generals of both sides have accepted invitations. Among those whose engagements prevent them from coming is ex-Senator Roscoe Conkling of New York, from whom the post has received the following letter:

New York, Aug. 22.—GENTLEMEN: It is an honor highly valued to be invited as one of the survivors of the Civil War to the approaching reunion of surviving soldiers who fought on one side and on the other in the late war. I beg you to receive my thanks and welcome to the meeting. I am unable to take part in observances of so much interest and significance. My earnest sympathy and regards go to all who go to the reunion and hope all sections and all classes, and to make our country throughout all its sections strong and safe. I hope that with or act of men decide every community and neighborhood in all the land should be crowned with the fruits of peace and progress and that all the people will be happy in the North or the South. The brave men who faced each other in battle can be the best teachers and the best guides to all. Glad to see that the reunion is to occur, and never forgotten the hospitality and kindness received in the past from the soldiers and the people of Indiana. I remain with love and regards. Cordially yours, Roscoe Conkling.

CHASED TO THE GRAVE.

The Scene Caused at an Indianapolis Cemetery by Relatives of a Suicide.

An unusual scene occurred at the burial of Samuel Sparks at Crown Hill Cemetery, says an Indianapolis telegraph. Sparks committed suicide by taking morphine, but a desire to keep his death a secret. The undertaker called at the health office for a permit to bury the remains. When the death certificate was handed to the officer in charge he refused to issue the permit, saying that the case should be called to the attention of the Coroner. The latter was summoned by telephone, but before he could learn all the facts the corpse was on route to Crown Hill as rapidly as decency would permit it to be carried. The Coroner secured a buggy and started to overtake the funeral procession, and reached the cemetery just as the corps was about to be lowered into the grave. He stopped the ceremonies, had the body taken from the coffin, pushed back the eye-lids, and took measurements of the corpse, all being done in the presence of the family and friends. The funeral ceremonies were then allowed to proceed.

The Green Diamond.

The race for the championship of the League is becoming decidedly interesting, as will be seen by the appended record of the eight contestants.

	Won	Lost	Percent.
Detroit	.56	.36	.59
Chicago	.52	.36	.59
Baltimore	.51	.41	.56
New York	.48	.41	.53
Boston	.48	.40	.54
Pittsburg	.37	.51	.42
Philadelphia	.36	.50	.40
Indianapolis	.28	.63	.30

St. Louis still maintains a lead in the American Association pennant race. The following shows the record of won and lost games:

Clubs	Won	Lost	Percent.
St. Louis	.74	.26	.740
Baltimore	.52	.36	.59
Cincinnati	.50	.47	.550
Baltimore	.51	.47	.580
Athletic	.51	.50	.500
Metropolitan	.33	.65	.330
Cleveland	.27	.75	.261

The Babcock Mystery.

The Coroner's jury in the Babcock case, at Gardner, Ill., returned a verdict holding that, from the testimony, they believed the fatal shot to have been fired by Miss Dodge, and recommending a full investigation by the Grundy County grand jury. No new facts were brought out at the inquest.

Trade Prospects.

R. G. DUN & CO., in their weekly trade review, note some improvement in general business throughout the country. The volume of legitimate trade is large, although in some important branches there is shrinkage. The tendency of prices for most commodities is upward.

The Colorado Indian Troubles.

A DENVER dispatch denies the report that Coloway and his band had been surrounded by whites. "It now appears that they are almost impregnably entrenched in the hills, and spelling for a big fight with the pale-faces. Captain Lawson narrowly escaped falling into their hands. On Wednesday, being pursued two miles and fled at a number of times."

Fifteen Drowned.

A LONDON dispatch says the excursion yacht Monarch was capsized in a squall in Bristol Channel and fifteen persons were drowned.

THE EASTERN STATES.

Mrs. ELIA DINSMORE has been convicted at Clarion, Pa., of the murder of James Davis, after a lengthy and sensational trial. David L. King is now under sentence of death for the same crime. Mrs. Dinsmore was an adventuress, with both Davis and King, and conspired with the latter to entice Davis to her lodgings, where King killed him. It is supposed the object of the murder was to plunder the victim, who was very wealthy. Both King and Mrs. Dinsmore pleaded self-defense on their trials.

MAJOR HANDELT, commanding Fort Duquesne, Utah, telegraphs the War Department that Coloway's followers, including women and children, number about 150. He believes they would return to the reservation if they could get there without being attacked. The military authorities believe the facts do not warrant the use of troops to suppress the supposed outbreak, and are inclined to think the action of the State officials has been precipitate. It is thought that if a judicious course is pursued Coloway can be induced to return peacefully to the reservation, but that an attack upon him by troops would be likely to cause a general Indian uprising.

A DISPATCH from Gardner, Ill., says: "Miss Sarah H. Dodge, the alleged slayer of Walter K. Babcock, the Chicago lumber merchant,

waived a hearing, and was admitted to bail to the sum of \$10,000. The willingness of State's Attorney Carter to accept \$10,000 bail is considered as a legal admission that he does not believe Miss Dodge will be convicted of the murder by the court, and that she will never get further than the Grand Jury. Mr. Carter admitted as much. He said: 'It will be difficult to convict Miss Dodge, I fear. Babcock's friends will not prosecute her, but want to let the matter drop. He refused to make any statement against her. She can claim the shooting was self-defense or accidental, and there is no way of successfully contradicting her.' The true cause of the death of Babcock will never be known to the public unless Miss Dodge chooses to reveal it. There is no reason why she should, and every reason why she should not."

GOYEN & FELL.

A Wall street firm, have made an assignment. One estimate of the liabilities places them at \$1,800,000, in cash would settle everything. The nominal assets are \$2,000,000.

THE WESTERN STATES.

The South Carolina rice crop has been almost ruined by floods. The losses of the planters are enormous, and the colored plantation hands are thus threatened with starvation during the winter unless relieved by public charity.

A TELEGRAM from San Antonio, Texas, reports the death of Jesus Yalidovich, a wealthy ranchman of Vera Cruz, at the age of 54, and the appearance at his funeral, in the capacity of pall-bearers, of three sons, the youngest 10 years old. All mail for Mr. Joseph Mulhall should be sent to San Antonio until further notice.

A DISPATCH from Denver of Friday last says: "Tuesday Major Leslie left Moeller with eighty men, going toward Blue Mountain, northeast from Moeller, to intercept the Ute, and yesterday a courier reached Glenwood with the information that Leslie had found them in Pot Hole Basin, on White River, in a natural stronghold. They numbered about two hundred bucks. Major Leslie had a parley with them, but they demanded the 'big white man,' and said: 'Don't talk to cowboys; while we have light foot, soldiers may go back home at night.' General Beeson, at once telegraphed Governor Adams urging him to accede to this request, and the Governor left for Moeller and the front."

The Governors of Kansas, Colorado, Ohio, Wisconsin, and Minnesota have also issued their quarantine proclamations against Illinois cattle except as they apply to Cook County.

Iowa and Wyoming proclamations have also been modified.

An attempt was made at South Bond, Ind., to remove from the streets the pots and wires of the Central Union Telephone Company. After the connection with the Exchange had been severed an injunction restraining the prosecution of the work was served on the authorities. The company attempted to replace the dismantled poles, but the citizens took the matter in hand and chopped them down as fast as they were erected.

THE SOUTHERN STATES.

A COLORADO (Texas) special to the Chicago Times says:

"A portion just in from the upper plains informs your correspondent that the reports of loss of cattle in the Capital City have not been in the least exaggerated. The company has thousands of cattle, and they are dying by the thousands. One employee of the syndicate told this gentleman that the cattle were being driven to market in droves of twenty-five hundred head per day, and one large herd of cattle, crazed by thirst, crowded on the coverings of the wall, which gave way, and the animals fell into the hole. Almost a hundred head were afterward dragged out of the hole. The almost entire drove of cattle for weeks past has kept the windows of the weather houses, thus cutting off almost the entire supply."

An Austin (Tex.) dispatch says: "The Washington County election cases, which have been on trial in the United States District Court here for several days, were brought to a close by the jury bringing in a verdict of 'Not guilty' on the second count, charging destruction of ballot-boxes by the defendants, and disagreeing as to the count charging conspiracy and interference with officers. Judge

Turner in accordance with the verdict declared the defendants not guilty as to the second count and that there had been a trial as to the other counts; and they were continued until the next term of court."

Five men have been indicted at Woodstock, Va., for killing Senator Rudolphi Berger, jailor, and the Deputy Sheriff who surrounded the keys to them, who have been indicted, Riddleberger, who has been endeavoring to man a pistol, is awaiting trial, and will return to jail this week to serve the remaining three days of his sentence.

It is stated the amount of money taken by Norman Robert, of Baltimore, Md., will reach \$400,000, which belonged to the Lomax heirs. He lost \$5,000 belonging to his medical expenses.

A WINNIPEG (Manitoba) special says: "Letters from Prairie and St. Louis, dated Fort Chipewyan, July 5, state that they reached that point after many hardships. Forest fires have been numerous and destructive. Death

and disease have been prevalent in the St. Lawrence River, near Montreal. The men saved themselves, and left the women and children to perish.

A RECOGNIZED authority on sugar estimates that the world's production of the article in 1880-81 is about 400,000 tons larger than that of the last preceding year. He thinks, however, that this will be compensated by an increased consumption, most of which he credits to Europe and North America.
